Herdsman: Bryan Leapaldt • 701-466-2553 • 701-739-8764 Cell

Welcome!

Most everyone seemed happy to see the end of 2022 and the beginning of another year! Let's try it again and see if it's any better! For North Dakotans, last Spring was a doozy. The late Spring blizzards were devastating to many ranchers across the state, followed by the mud from all the snow and spring rains and then the water shut off and caused a drought in many areas. Then to top it off, our winter started again in early November! Crazy how we could go from being so saturated to so dry within a few months. In the end, in our area, we were thankful for the moisture we did receive in the Spring as it carried us through the summer for our crops and our grass. I'm hoping we'll also see a silver lining for the blizzards we've had this winter. Time will tell. For now, though, we remain the eternal optimists and just keep plugging along!

The late Spring, made for a late Fall and the early winter made for a lot of challenges in getting our bull sale catalog put together! Feels like we've been chasing our tails all year! It sure was a struggle to get pictures of the bulls this year, so we don't have as many photos in the catalog this year and many of our ads didn't even have any bulls pictured.

On top of the weather not cooperating, Erika and Tyler had their first child on December 9th! It's a girl and her name is Eleanor Lannoye. Everyone is doing well, but it's been a little extra busy around here this year!

We're looking forward to showcasing the bulls and bred heifers again! We have some exciting new sire groups and some of the familiar ones! Feel free to come to ranch before the sale and look through them on your own schedule. If you can't make it, please call Bryan or Erika to help you in your selections. DVAuction will be broadcasting the sale again and there will be several people available on the phone on sale day! The videos will be online at DVAuction soon.

We appreciate our customers so much! Many of you have become great friends and we love being able to re-connect each year at the sale! Put February 11th on your calendar and plan to join us in person or online!

Sincerely,
Kenner Simmental Ranch

Tyler Lannoye and Erika Kenner
welcomed baby Eleanor in December!

Roger and Jeanette Kenner and grandkids

The Leapaldt Family

ANNOUNCEMENTS

Announcements made sale day, and from the auction block during the sale, take precedence over printed material associated with this sale. Anyone attending this sale attends at their own risk. Breeders or any of the sale staff will not be held responsible for any personal injury while attending this sale.

AIRPORT

Devils Lake Regional Airport (DVL) is served by United to Denver and has excellent facilities for light aircraft.

Leeds (D31), Maddock (6D3) and Rugby (KRUG) have airports for light aircraft. Check runway conditions before landing.

EPDS

BOLT EPDs pulled 12/27/2022. All the bulls have been HD-tested (and parent verified) and have the genomics incorporated in the EPDs in this catalog.

HERD HEALTH & DATA TEAM

Herd Veterinarian, Sheridan Animal Hospital, Harvey, ND

Pregnancy Ultrasound, Dr. JJ Hovde, High Plains Vet Service, Sydney, MT

Carcass Ultrasound, Jason McLennan, Inc., St. Onge, SD

PERFORMANCE DATA

Complete ultrasound data will be available before the sale by logging on to www.kennersimmental.com. Data will also be available on sale day.

VIDEOS

Videos of the bulls and heifers will be available on our website in the middle of January. Log on to www.kennersimmental.com.

SALE FORMAT

The cattle will sell by video on sale day. All the bulls and heifers will be penned next to the sale barn by 9 am on sale day and will stay in those pens throughout the sale.

TRUCKING

We will try to deliver the bulls to the buyer's farm, or we will assist buyers in coordinating loads and make the most economical trucking arrangements possible. All the bred heifers must be picked up on sale day or have trucking arrangements made soon after since they will be close to calving. For assistance with trucking arrangements, contact Erika.

INSURANCE

We can keep the bulls at home for no charge until April 1, but we recommend purchasing insurance.

For more information contact: Erika Kenner, 406-581-1188

TERMS & CONDITIONS

- We guarantee all bulls to be breeders and we reserve the right to test any bull in question as a non-breeder for a reasonable amount of time before making an adjustment. And, if the bull is declared a sound breeder by a competent veterinarian, he will be returned to the buyer. In case an adjustment is required, it will be made with a replacement of equal value to animal in question, credit on purchase of another animal, or return of purchase price.
- Each animal becomes property and therefore is also the risk of the purchaser after it is sold. We guarantee the cattle to be healthy sale day.
- For those who cannot attend the sale, we will honor a telephone order and guarantee your phone purchase to meet your request when inspected personally by you.
- Certificates of registry will be supplied by the seller.
- All cattle sell under terms and conditions of the American Simmental Association and will be available in the office on sale day by request.
- We reserve the right to collect 100 units of semen on any bull in the sale for in-herd use only. The collection would be at our expense and buyer's convenience. Each bull will sell to the buyer with 100% ownership opportunity.

Can't make it? Watch and bid online through DVAuction.

Log on to www.dvauction.com and register for the sale. *You must be approved prior to the sale, so please register early.*

Catalog designed by

KENNER SIMMENTAL RANCH

Understanding the Data

WHY USE EPDS?

We have included all the data we can for each animal in this catalog, but we strongly recommend using the EPDs the most. EPDs allow a buyer to compare the animals across the breed. If you look at the actual data of an animal, it only tells you how they compare in that particular herd. By using the EPDs, you can compare them across herds and within herds more accurately.

We've formatted our lot boxes to include the percentile ranking for each trait if they rank within the top 50% of the breed. This will make it easier to evaluate each animal.

CALVING EASE EPD

Please understand the CE EPD is actually **heifer** calving ease. This number tells you how those bulls will calve on heifers - % unassisted compared to the other bulls on heifers. For example: If Bull A has a CE EPD of 10 and Bull B has a CE EPD of 5, Bull A will have 5% more unassisted births than Bull B when used on heifers. If you are going to use the bull for cows, you do not need to have that number as high.

GENOMIC EPDS

There are several genomic tests available. The GGP 100K test qualifies the animals for AI sires and donor cows and tests for parentage. The results are incorporated in to the EPDs through the single-step system (BOLT) and increases the accuracy for each trait.

All the bulls and heifers in the offering have been GGP 100K tested and the resulting EPDs are in the catalog. If any bulls will be used in an AI program, they are already qualified as an AI sire.

DILUTION GENE (DL)

All the red animals in this sale are non-diluted (DLF). DLF means they are free of the dilution gene. Grey calves will not result from any of these animals when bred to black animals.

OH GENETIC TRAIT

OH or Oculocutaneous Hypopigmentation is a cosmetic genetic trait affecting Simmental cattle. It is a recessive trait so it is only possible from the mating of two carriers. It is non-lethal and doesn't affect performance of the animal, but the animals will have "white-colored" eyes and/or a diluted hair coat. The most popular recent ancestor that is the carrier is PVF-BF BF26 Black Joker. We have tested everything in our herd that could possibly be a carrier and have identified the ones in this sale as either **OHF (Free)** or **OHC (Carrier)**.

OHC means that animal carries the gene. If mated with other carriers, there is a possibility to see the trait. If not mated to carriers, you will not see the trait, but may pass the carrier gene to some of the progeny.

DD GENETIC CONDITION

Developmental Duplication (DD) is a genetic condition where the affected calves frequently develop extra body parts (often limbs), a condition called polymelia. This is a non-lethal, recessive trait, so the animal needs to have both genes for it to show signs. If you have a carrier (DDC), you do not want to mate that animal to another carrier animal.

HERD HEALTH

BULL VACCINATIONS

Calfhood: Nasalgen 3-PMH & Bovilis Coronavirus

Pre-turnout: Alpha 7, Pyramid 5 + Presponse and Bovilis Coronavirus

Pre-weaning: Pyramid 5+ Presponse, Mycoplasma and Bovilis Coronavirus

Weaning: Ultrabac 7 and Synanthic Drench

30-day Post-Weaning: Pyramid 5 + Presponse

January: Poured with Cleanup II

BRED HEIFER VACCINATIONS

Pre-breeding: Express FP5-VL5 and boosted with Express FP5-VL5

November: Scour Box 9 and Type A Clostridia

January: Scour Bos 4, Type A Clostridia, Wormed with Safeguard and Poured with Cleanup II

The bulls were fed a TMR ration formulated by Tim Clark of Hubbard Feeds. Our ration is formulated on a moderate level of energy that's appropriate for the genetic type and the northern environment in order to develop bulls for breeding. We worked the bulls up to a 48 Mcal ration and kept them at that level during the test period. Our trace mineral program is designed to improve structural integrity, foot quality and immune function. They are on a high-end supplement program. Our average ADG for the 2023 sale bulls was 3.4 on a 110-day test.

BVD AND JOHNE'S STATUS

All animals in the herd tested negative for BVD. We follow the state's guidelines for Johne's Testing and have maintained our Johne's Status.

Can't make the sale? Watch & bid online for FREE at www.dvauction.com !

DVAuction
Broadcasting Real-Time Auctions

Buying online is as easy as 1, 2, 3...

1. Create an account at www.dvauction.com under the "register" tab
2. Apply for bidding approval by clicking on the "details" tab at least 24 hours prior to the auction-a DV representative will notify you once you have been approved
3. Tune in for the sale and make your purchases!

After the sale, contact the sale manager or owner to arrange transportation and payment. **High speed internet** is required for successful bidding-be sure to check the lag-time monitor in the top left corner to ensure real-time broadcasts.

Proxy Bidding-if you can't make time to watch the sale, register a proxy bid and let our system represent your bid while you're away. Look for the "proxy bid" tab on the auction listing, and fill in your maximum bids. We'll handle the rest!

Having troubles?

During the auction, you can type a message to the operator at any time for assistance. Our full-time support team can also always be reached at (402) 474-5557.

HOMOZYGOUS BLACK / HOMOZYGOUS POLLED

PUREBRED SIMMENTAL

Manifesto was the \$67,000 bull from the Bichler Simmental Sale in 2019. He is owned by LCDR Simmental and Bichler Simmental. We loved Manifesto when he sold and tried hard to own him. We AI'd heavily to him and we love the calves, as he proved to be a performance bull. The bulls are stout with thick tops and great muscle shape. They are super gentle and laid back and the feet look excellent at this point. Look to the Manifesto's to add performance, docility, and soundness into your herd. The daughters look to be good also! Sons sell as Lots 1 – 8 in the Purebred section and Lots 30 – 37 in the 3/4 SimAngus section and daughters sell as Lots 116 – 118.

SRF MISS 940G

HOMOZYGOUS BLACK / HOMOZYGOUS POLLED

5/8 SIMMENTAL 3/8 ANGUS

Erika and Bryan purchased 940G together at the ND State Simmental Sale in 2020 from Todd Finke and she immediately went into the donor pen. She is one of the most attractive females in our herd and she has proven she can produce! The flush by Manifesto is impressive and the full-sib daughters in the replacement pen are phenomenal! Her first calf she had naturally is also in the sale as Lot 141. Her sons sell as Lots 1 – 4. We are excited for the future of this female!

Black SimAngus Bulls

CLRS GUARDIAN 317G

HOMOZYGOUS BLACK / HOMOZYGOUS POLLED / PUREBRED SIMMENTAL

Guardian was the high-selling bull from the 2020 Bred For Balance Sale. He is an outcross pedigree for us and has an amazing EPD profile, so we utilized him in our AI program on heifers and high-performance cows. He calved like a dream on heifers. Sons sell as Lots 9 - 10 and a daughter sells as Lot 132.

LRS TOP SHELF 902F

HOMOZYGOUS BLACK / HOMOZYGOUS POLLED
1/2 SIMMENTAL 1/2 ANGUS

Our first year's calves from using Top Shelf in our AI program. Top Shelf was raised by Lassel Ranch, Glendive, MT and sold to Begger's Diamond V Ranch, Wibaux at their 2019 sale. We've noticed great calves by him at their sales the past few years, so we used him in our ET and AI programs. They are stylish, yet powerful bulls and a total outcross pedigree for our program. We mated him to our 1/2 SimAngus cows, so all the sons in our sale are still 1/2 SimAngus. Sons sell as Lots 11 - 14.

HOMOZYGOUS BLACK / HOMOZYGOUS POLLED / 1/2 SIMMENTAL 1/2 ANGUS

Top 1% for growth and still top 15% for API! Hercules has an excellent EPD profile and was used here to add growth and frame in a different pedigree. Hercules was raised by Double T Simmentals, Turtle Lake, ND and sold to Begger's Diamond V Ranch, Wibaux, MT in 2021, and we used him in our AI program. This is his first calf crop. Sons sell as Lots 19 - 21.

WL ACCOMPLISHMENT 003 & WL ACCOMPLISHMENT 053

PUREBRED ANGUS

Accomplishment 003 was used in our AI program and is owned by Wendel Livestock of LaMoure, ND. He is an Accomplishment 720F son they kept out of their sale for themselves and agreed to sell us some semen on him! We used him in our ET program and AI and the calves are very impressive. He is also a paternal brother to our herd bull we purchased from Wendel's in 2021, WL Accomplishment 053. The EPD profile on 003 is excellent all the way across and the calves are super functional, stylish with great dispositions. The 053 bull was only used in the pasture, so many of his calves are later born, but they are put together so well. He calved super on heifers and was also used on some high-performance cows. He has a great disposition and his calves are the same. Sons of 003 sell as Lots 22 - 24 and sons of 053 sell as Lots 25 - 26.

HOMOZYGOUS BLACK / HOMOZYGOUS POLLED
PUREBRED SIMMENTAL

Manifesto was the \$67,000 bull from the Bichler Simmental Sale in 2019. He is owned by LCDR Simmental and Bichler Simmental. We loved Manifesto when he sold and tried hard to own him. We AI'd heavily to him and we love the calves, as he proved to be a performance bull. The bulls are stout with thick tops and great muscle shape. They are super gentle and laid back and the feet look excellent at this point. Look to the Manifesto's to add performance, docility, and soundness into your herd. The daughters look to be good also! Sons sell as Lots 1 – 8 in the Purebred section and Lots 30 – 37 in the 3/4 SimAngus section and daughters sell as Lots 116 – 118.

TNT RANGEFINDER H339

HOMOZYGOUS BLACK / HOMOZYGOUS POLLED
PUREBRED SIMMENTAL

Rangefinder was our pick of the TNT sale in 2021 to use on heifers and these are his first calves. He calved like a dream and the calves have performed well, look great and are quite impressive! He was also used on high-performance cows and that combination really clicked! Sons sell as Lots 39 - 45.

COLORADO BRIDLE BIT E752

HOMOZYGOUS BLACK / HOMOZYGOUS POLLED

PUREBRED SIMMENTAL

This is our 4th calf crop by Colorado and we still love them. He is owned by Mike Traxinger, SD. He works perfect on heifers and high-performance cows. Not only do they calve easy, but they are stylish, deep bodied and have adequate thickness. Plus, we've found out that we love his daughters – they are easy fleshing, super to deal with and have beautiful udders! His EPD profile is well-balanced all the way across. He works well in combination with the power females in our herd. Sons sell as Lots 46 – 52 and his daughters sell as Lots 123 – 125.

CAMP CAMPBELL E737

HOMOZYGOUS BLACK / HOMOZYGOUS POLLED
PUREBRED SIMMENTAL

Campbell is owned by Nelson Livestock of Wibaux, MT and we've utilized a little in our AI program the past few years. He was raised by Campbell Livestock of Colorado. Even though we haven't had very many calves by him each year, they usually end up making the sale. He's a performance bull that adds frame and length to his calves. He also ranks in the top 10% for marbling. His sons this year are a set of twins who will definitely add performance. Sons sell as Lots 53 & 54.

HOOK'S FULL FIGURES 11F

HETEROZYGOUS BLACK / HOMOZYGOUS POLLED

3/4 SIMMENTAL 1/4 ANGUS

Hook's Full Figures works well on heifers and high-performance cows and puts such great dispositions on his calves that this is the 3rd calf crop we have had by him. One of his first sons selling here sold to Lazy C Diamond, KS Net Income, and you'll see his calves selling this year for them. So far, the feet look excellent on his progeny, and he still puts an attractive phenotype with plenty of muscle in more of a calving ease package. Full Figures is heterozygous black, so you'll also find sons in the red bull pen. Sons sell as Lots 55 - 57 and 76 - 77 in the Red Section.

Red Purebred Bulls (All non-diluted)

DCR MR HANG OVER H238

DCR MR HANG OVER H238

NON-DILUTED RED / HOMOZYGOUS POLLED
PUREBRED SIMMENTAL

Hang Over was our selection from the Doll Farms sale in 2021 as an outcross performance bull for us! We are so happy with how he's done for us! He has 9 sons in this year's sale, and we are sure you will be impressed with them! For a performance bull, he still maintains a moderate birth weight and adds carcass value. He stands on a good solid foot with good depth of heel and a good angle, so we are not foreseeing feet problems. Sons sell as Lots 63 – 71.

KS ELSIE E820

NON-DILUTED RED / HOMOZYGOUS POLLED
PUREBRED SIMMENTAL

Elsie is a daughter of KS Penny X395 and ShamWow! We have a few of those daughters in our herd and they all rise to the top each year with their calves. In fact, a full sister to her, KS Emme E845, has two ET sons and a daughter in this sale also. Last year, Elsie's ET sons topped our sale with her Vanderbilt flush. There is also a full sister in the Bichler Simmental program, KS Zada. Elsie has a good udder, a super disposition, and great feet and structure. She seems to click with every mating we throw at her! Sons sell as Lots 63 – 65.

HOOK'S FULL FIGURES 11F

HETEROZYGOUS BLACK / HOMOZYGOUS POLLED

3/4 SIMMENTAL 1/4 ANGUS

There aren't very many red bulls by Full Figures this year in the sale, but the ones who are here are good! Since he is heterozygous black, he only gets used in rare occasions, but we should use him more as we are so impressed every year! Full Figures puts amazing dispositions on his calves and great feet! They also calve easy and still grow! These two bulls in the red section are outcross pedigrees to most and could be herd sire material! Red sons sell as Lots 76 & 77, but you will also find three heterozygous black sons in the Purebred Black section – Lots 55 – 57.

KWA FUTURE 3G

NON-DILUTED RED / HOMOZYGOUS POLLED
PUREBRED SIMMENTAL

We purchased Future from Ashworth Farm in Saskatchewan in 2020 and his semen rights are owned by Bouchard Livestock. This is his 2nd calf crop to sell for us and this year he has daughters in the sale too. He was injured last year and had to be put down preventing us from getting an updated photo of him, which is too bad since he looked amazing. He was one of the easiest bulls to work with and had very good feet. His sons and daughters in this sale are very impressive and provide an outcross pedigree to most. Sons sell as Lots 78 - 82 and daughters sell as Lots 115 & 168 - 173.

KENNER SIMMENTAL RANCH

Red Purebred Bulls (All non-diluted)

KS BAYLOR G119

NON-DILUTED RED / HOMOZYGOUS POLLED
3/4 SIMMENTAL 1/4 ANGUS

Baylor sold in our 2020 sale to Ben Stroh of Tappen and we used him in our AI program in the past, but we purchased him back last year and used him in our pasture this past summer. Baylor's dam is KS Alivia A977, who is also the dam of KS Outburst and has a son in this sale by Full Figures that is very impressive. The maternal side of this pedigree is very consistent! Baylor adds performance in a moderate birth weight, has an excellent foot, and often puts the dark, cherry red color in his calves. Sons sell as Lots 89 – 91 in the Purebred Red section and Lots 99 – 100 in the Red SimAngus section.

QB VOYAGER H28

QB VOYAGER H28

HETEROZYGOUS BLACK / HOMOZYGOUS POLLED

3/4 SIMMENTAL 1/4 ANGUS

We purchased Voyager from Quandt Brothers of Oakes, ND a couple years ago and this is the first calf crop to sell by him. They are impressively stout made in a moderate frame and offer an outcross pedigree for us. So far, we see great dispositions and good foot quality! An added bonus is that he is heterozygous black which allows us to make outcross pedigrees in the red. He has two bulls in the sale – 2 full brothers, but one is black and one is red. Sons sell as Lots 38 and 94.

- Dam was a first calf heifer.

PUREBRED RED ANGUS BULLS

We have focused our Red Angus program around calving ease and carcass traits, but we are selective on udder quality, disposition and feet as well. We have 10 yearlings in the offering this year. The Red Angus are registered with the American Simmental Association and can be registered with the Red Angus Association of America upon request.

OVER DRAFT PICK 413D

OVER DRAFT PICK 413D

PUREBRED RED ANGUS

This is our 2nd calf crop to sell by Draft Pick and we have really been happy with them! We decided to use him because we heard he had great feet and the calves were looking good and we agree! So far, his progeny's feet look good and the bulls are smooth, thick and eye-appealing. These bulls should calve easy, yet also have adequate growth, especially when using on heifers. The dispositions are excellent. Sons sell as Lots 103 - 106.

PUREBRED RED ANGUS

Admiral was our selection of the Twedt Red Angus sale in 2021 for \$27,000. We were so impressed with his feet when we saw him! He has an excellent depth of heel and hoof angle which is getting harder to find it seems. We sampled him on heifers the first year since he also had a lot of performance, but so far, he has passed the test and we love his calves! He was used on a lot of heifers again this year. His EPD profile is very balanced for all traits and we feel he is going to be an asset to the Red Angus breed! Sons sell as Lots 101 – 102 in the Red SimAngus section and Lots 107 – 113 in the PB Red Angus section.

The Female Influence

THROUGH EXTENSIVE EMBRYO TRANSFER WE HAVE BEEN ABLE TO CAPITALIZE ON POWERFUL FEMALES TO INCREASE QUALITY! WE KNOW WE STARTED WITH THE BEST SINCE WE KEEP BRINGING DAUGHTERS OF THEM INTO THE DONOR PEN.

THE PENNY INFLUENCE

KS Penny X395

KS Saturn U390 x NLC Mahogany

There are three daughters of Penny in our donor pen, plus KS Zada at Bichler Simmentals!

KS Elsie E820

BCLR ShamWow x KS Penny X395
Daughter of KS Penny X395 and mother of high-selling KS Vanderbilt flush sold in 2022 sale. DCR Hang Over sons are Lots 63 – 65 in this sale!

KS Emme E845

BCLR ShamWow x KS Penny X395
Full sister to KS Elsie E820. Sons sell as Lot 38 & 94 and a daughter is Lot 169.

KS Fergie F2027

BCLR ShamWow x KS Penny X395
Another full sister to K820 and K845 who's progeny will show up in the next few years!

THE KS KAYLA INFLUENCE

The Kayla females always rise to the top! In fact, we have 4 generations of donor cows starting with her!

KS Brinley B33

KS Magic Mike Z903 x KS Ziva Z798
Many sons have sold in the past sales by B33.

KS Ziva Z798

LFEBISS Black Advance x KS Wandy W82
Son sells as Lot 56. Son by a full sister to KS Wandy W82 sells as Lot 21 and grandsons of KS Wandy W82 sell as Lots 11, 12 & 13. Several bred heifers in the sale are also part of this cow family.

KS Wandy W82

BC Matrix x Kayla
Many grandsons and granddaughters sell in this sale!

KS Kayla J497

LRS Preferred Stock x BS Mr Arapahoe

THE R3 INFLUENCE

R3

Bon View New Design x PVF-BF BF26 Black Joker
Many grandsons sell by R3 in this sale! She was sold to Bichler Simmentals in 2015 and has been deceased for a while, but her progeny are still influential in our herd! See her influence in lots 20, 39, 48, & 50.

NEW FEMALE INFLUENCERS

BGL Zahara Z159B

BCLR ShamWow x ACS Red Knight
Owned by Bryan Leapaldt
Sons sell as Lots 71 & 72 and a daughter by LCDR Intrigue is Lot 159. This cow puts the best feet on her progeny and has many daughters in our herd!

SRF Miss 940G

Cowboy Cut x RDDS Future Prototype
New to our donor pen! Purchased from SRF Simmental at the ND State Sale. Powerful BCLR Manifesto sons sell as lots 1 – 4 in the 2023 sale!

KS Federica F298

LFE The Riddler x KR Sharp Shooter
Dam of the Sitz Stellar flush in 2022 and a daughter sells in this sale. Look for more progeny by F298 in the future!

KENNER SIMMENTAL RANCH

Bull Buyer's Quick Guide to ASA EPDs and \$ Indexes

Expected Progeny Differences (EPDs): EPDs are the most accurate and effective tool available for comparing genetic levels. In using EPDs, the difference between two sires' EPDs represents the unit difference expected in the performance of their progeny. For example, if sires A and B have EPDs of +10 and -5, a 15-unit difference would be expected in their progeny (moving from -5 to +10 yields 15 units). Key to using EPDs is knowing in what units they are expressed. For example, if the above case referred to weaning weight EPDs, sire A would be expected to sire 15 pounds more weaning weight than sire B. If calving ease was the trait, sire A would be expected to sire 15 percent more unassisted births in first-calf heifers; in other words, if sire B sired 30 assists in a group of 100 heifers, we would expect sire A to require 15 assists. A percentile-ranking chart is required to determine where a bull's EPDs rank him relative to other bulls in the breed. For more detailed information about EPDs and \$ indexes, visit www.simmental.org. Listed below are the units in which ASA EPDs are expressed:

All-Purpose Index (API): Dollars per cow exposed under an all-purpose-sire scenario. (See \$ Indexes for more details.)

Back Fat (BF): Inches of carcass backfat at 475 days.

Birth Weight (BW): Pounds of birth weight.

Calving Ease (CE): Percent of unassisted births when used on heifers.

Carcass Weight (CW): Pounds of carcass weight at 475 days.

Docility (DOC): Percent of offspring receiving a disposition score of 1 (docile).

\$ Indexes: Though EPDs allow for the comparison of genetic levels for many economically important traits, they only provide pieces of the economic puzzle. This is where \$ indexes come in. Through well-conceived, rigorous mathematical computation, \$ indexes blend EPDs and economics to estimate an animal's overall impact on integrated commercial production. The same technology that led to the dramatic progress in swine, poultry and dairy genetics over the last several decades was used to develop the following \$ indexes:

All-Purpose Index (API): Evaluates sires for use on the entire cow herd (bred to both Angus first-calf heifers and mature cows) with the portion of their daughters required to maintain herd size retained and the remaining heifers and steers put on feed and sold grade and yield.

Terminal Index (TI): Evaluates sires for use on mature Angus cows with all offspring put on feed and sold grade and yield.

Using API and TI: First, determine which index to use; if you are keeping replacements use API, if not, use TI. Then, just as with EPDs, zero in on the unit difference between bulls. (As described above, index units are in dollars per cow exposed.) The difference can be used to determine how much a bull is worth compared to another. Put another way, how much you can pay for one bull compared to another. For example, when buying an all-purpose-type sire, you can quickly figure a bull scoring +100 for API is worth an extra \$6,000 over a +50 bull if both are exposed to 30 cows over 4 years (\$50 diff. x 30 hd. x 4 yr.= \$6,000). A percentile-ranking chart is required to determine where a bull's index value ranks him relative to other bulls in the breed. For more detailed information about EPDs and \$ indexes, visit: www.simmental.org

Important disclaimer: DO NOT compare index values of purebreds of different breeds, hybrids of different breed composition or purebreds with hybrids — our system was not developed to make valid comparison among these groups. Therefore, you must first determine the breed and breed composition appropriate for your herd and use index values to compare animals within that population.

Maternal Calving Ease (MCE): Percent of unassisted births in first-calving daughters.

Milk (MLK): Pounds of weaning weight due to milk.

Marbling (MRB): Carcass marbling score at 475 days.

Maternal Weaning Weight (MWW): Pounds of weaning weight due to milk and growth.

Ribeye Area (REA): Square inches of carcass ribeye at 475 days.

Stayability (STAY): Percent of daughters remaining in the cowherd at six years of age.

Terminal Index (TI): Dollars per cow exposed under a terminal-sire scenario. (See TI for more details.)

Warner-Bratzler Shear Force (WBSF): Pounds of force required to shear a rib-eye steak.

Weaning Weight (WW): Pounds of weaning weight.

Yearling Weight (YW): Pounds of yearling weight.

Yield Grade (YG): Carcass yield grade score at 475 days.

The background of the entire page is a photograph of a Simmental cow and calf in a field. The cow is dark brown with white markings on its face and legs, and the calf is smaller and also has similar markings. They are standing in a grassy field with a body of water in the background. A large white rectangular box is placed over the middle right portion of the image.
