Welcome to the 30th Annual Kenner Simmental Sale!

In the last 30 years, we've witnessed many changes in the cattle business! From the type and color of cattle to how we sell them! We used to haul everything to a sale barn and for the past 12 years we have had the sale at our own ranch. We now sell them on tv screens and online! We have also seen a huge change in the prices! Since the last couple years, cattle producers are getting paid what these cattle are worth! Change can be hard at times, but that one is easy to accept!

We are excited for the 2026 sale! We love reconnecting with our customers. The people in the beef industry are truly the best. As always, you are welcome to come and tour the bulls and females prior to the sale! Just let us know you are coming so we make sure we are here. This year we've added some new things! We decided to leave the bulls out one more cycle and anything that was bred at that time is in the sale. There are 15 May/June calving cows added to the sale this year and a few May/June calving heifers from our replacement pen! We also have 25 head of red commercial replacement heifers consigned by a customer from Dickinson! We look forward to providing more of these opportunities to our buyers in the future!

Our goal is to produce functional cattle that will make our customers money. We focus on performance, but we also breed for balance and we understand that we are still producing a food product. Carcass value is also important. You'll notice our offering this year is heavy on performance cattle and we only have a select few calving ease options.

We stand behind our cattle 100%. Please let us know if you have problems where we can assist. Disposition, feet, and breeding soundness are all guaranteed.

Please join us on sale day, February 14, at our ranch at Leeds, ND! If you can't make it on sale day, consider stopping out ahead of time and getting your name in the drawing for the \$500 sale credit! You can also always contact us and we will go through the bulls with you over the phone ahead of time. On sale day, online bidding is available or we can arrange for someone to be on the phone. We are always happy to assist you in finding what you need!

Sincerely,
Kenner Simmental Ranch

Erika Kenner, Tyler and Eleanor Lannoye

ANNOUNCEMENTS

Announcements made sale day, and from the auction block during the sale, take precedence over printed material associated with this sale. Anyone attending this sale attends at their own risk. Breeders or any of the sale staff will not be held responsible for any personal injury while attending this sale.

AIRPORT

Devils Lake Regional Airport (DVL) is served by United to Denver and has excellent facilities for light aircraft.

Leeds (D31), Maddock (6D3) and Rugby (KRUG) have airports for light aircraft. Check runway conditions before landing.

EPDS

BOLT EPDs pulled 12/30/2025. All the bulls have been HD-tested (and parent verified) and have the genomics incorporated in the EPDs in this catalog.

HERD HEALTH & DATA TEAM

Herd Veterinarian, Sheridan Animal Hospital, Harvey, ND

Pregnancy Ultrasound, Dr. JJ Hovde, High Plains Vet Service, Sydney, MT

PERFORMANCE DATA

All the performance data is included in this sale catalog. The gains are calculated on a 95-day test period from weaning until 12/28/25. The scrotal measurements were also taken on 12/28/25 and adjusted to a year of age.

VIDEOS

Videos of the bulls and heifers will be available on our website and DVAuction in the middle of January. Log on to www.kennersimmental.com.

SALE FORMAT

The cattle will sell by video on sale day. All the bulls and heifers will be penned next to the sale barn by 9 am on sale day and will stay in those pens throughout the sale.

TRUCKING

We will try to deliver the bulls to the buyer's farm, or we will assist buyers in coordinating loads and make the most economical trucking arrangements possible. All the bred heifers must be picked up on sale day or have trucking arrangements made soon after since they will be close to calving. For assistance with trucking arrangements, contact Erika.

INSURANCE

We can keep the bulls at home for no charge until April 1, but we recommend purchasing insurance.

For more information contact: Erika Kenner, 406-581-1188

TERMS & CONDITIONS

- We guarantee all bulls to be breeders and we reserve the right to test any bull in question as a non-breeder for a reasonable amount of time before making an adjustment. And, if the bull is declared a sound breeder by a competent veterinarian, he will be returned to the buyer. In case an adjustment is required, it will be made with a replacement of equal value to animal in question, credit on purchase of another animal, or return of purchase price.
- Each animal becomes property and therefore is also the risk of the purchaser after it is sold. We guarantee the cattle to be healthy sale day.
- For those who cannot attend the sale, we will honor a telephone order and guarantee your phone purchase to meet your request when inspected personally by you.
- Certificates of registry will be supplied by the seller.
- All cattle sell under terms and conditions of the American Simmental Association and will be available in the office on sale day by request.
- We reserve the right to collect 100 units of semen on any bull in the sale for in-herd use only. The collection would be at our expense and buyer's convenience. Each bull will sell to the buyer with 100% ownership opportunity.

Can't make it? Watch and bid online through DVAuction.

Log on to www.dvauction.com and register for the sale. *You must be approved prior to the sale, so please register early.*

Catalog designed by

KENNER SIMMENTAL RANCH

Understanding the Data

CUSTOMER SERVICE BENEFITS

Bulls are fed for free and delivered to your doorstep or as close as possible. They will be semen tested and delivered once they have passed.

All animals in the sale are 100% guaranteed for docility, feet quality, breeding soundness and pregnancy in the females. Contact us if you have any issues.

All animals in the sale that were born at Kenner's are parent verified to both the sire and the dam and have genomic EPDs. Any cows in the sale that we purchased are parent verified to the sire or have DNA on file and are still genomically enhanced.

DNA AND GENETIC TRAITS

DNA TESTING AND GENOMIC EPDS

There are several genomic tests available. The GGP 100K test qualifies the animals for AI sires and donor cows and tests for parentage. The results are incorporated in to the EPDs through the single-step system (BOLT) and increases the accuracy for each trait.

All the bulls and heifers in the offering have been GGP 100K tested and the resulting EPDs are in the catalog. They've also been tested for any genetic traits or defects that were needed. All bulls are already qualified as an AI sire and all the bred heifers already qualify as donor females.

DILUTION GENE (DL)

All the red animals in this sale are non-diluted (DLF). DLF means they are free of the dilution gene. Grey calves will not result from any of these animals when bred to black animals.

OH GENETIC TRAIT

OH or Oculocutaneous Hypopigmentation is a cosmetic genetic trait affecting Simmental cattle. It is a recessive trait so it is only possible from the mating of two carriers. It is non-lethal and doesn't affect performance of the animal, but the animals will have "white-colored" eyes and/or a diluted hair coat. The most popular recent ancestor that is the carrier is PVF-BF BF26 Black Joker. We have tested everything in our herd that could possibly be a carrier and have identified the ones in this sale who are carriers (OHC).

OHC means that animal carries the gene. If mated with other carriers, there is a possibility to see the trait. If not mated to carriers, you will not see the trait, but may pass the carrier gene to some of the progeny.

ENTER TO WIN!

Visit the farm to view the sale offering from December 1st through February 13th to be entered to win a **\$500 SALE CREDIT** to be used at our 2026 production sale!

HERD HEALTH

BULL VACCINATIONS

Calfhood: Nasalgen 3-PMH & Bovilis Coronavirus

Pre-turnout: Alpha 7 and Pyramid 5 + Presponse

Pre-weaning: Pyramid 5+ Presponse, Mycoplasma and Bovilis Coronavirus

Weaning: Ultrabac 7, Pyramid 5 + Presponse, and Synanthic Drench

November: Mycoplasma

December: Poured with generic Ivermectin

January: Poured with Clean-Up

BRED HEIFER VACCINATIONS

Pre-breeding: Express FP5-VL5 and boosted with Express FP5-VL5

November: Scour Bos 9 and Type A Clostridia

December: Poured with Generic Ivermectin

January: Scour Bos 4, Type A Clostridia, Poured with Clean-Up

COW VACCINATIONS

December: Poured with Generic Ivermectin

January: Poured with Clean-Up

February: Scour Bos 9 and Type A Clostridia

The bulls were fed a TMR ration formulated by Tim Clark of Hubbard Feeds. Our ration is formulated on a moderate level of energy that's appropriate for the genetic type and the northern environment in order to develop bulls for breeding. We worked the bulls up to a 48 Mcal ration and kept them at that level during the test period. Our trace mineral program is designed to improve structural integrity, foot quality and immune function. They are on a high-end supplement program. Our average ADG for the 2026 sale bulls was 3.3 lbs on a 95-day test.

BVD AND JOHNE'S STATUS

All animals in the herd tested negative for BVD. We follow the state's guidelines for Johne's Testing and have maintained our Johne's Status.

Buying online is as easy as 1, 2, 3...

1. Create an account at www.dvauction.com under the "register" tab
2. Apply for bidding approval by clicking on the "details" tab at least 24 hours prior to the auction-a DV representative will notify you once you have been approved
3. Tune in for the sale and make your purchases!

After the sale, contact the sale manager or owner to arrange transportation and payment. **High speed internet** is required for successful bidding-be sure to check the lag-time monitor in the top left corner to ensure real-time broadcasts.

Proxy Bidding-if you can't make time to watch the sale, register a proxy bid and let our system represent your bid while you're away. Look for the "proxy bid" tab on the auction listing, and fill in your maximum bids. We'll handle the rest!

Having troubles?

During the auction, you can type a message to the operator at any time for assistance. Our full-time support team can also always be reached at (402) 474-5557.

KENNER SIMMENTAL RANCH

Black Purebred & 3/4 Simmental Bulls (All Homo Polled)

LCDR DILIGENCE 215J

HOMOZYGOUS BLACK / HOMOZYGOUS POLLED

This is our second calf crop by Diligence. He was an outcross pedigree to most of our herd. We have been very impressed with the thickness and muscle shape of his calves. His calves are always the first ones you notice in the pasture or in the pen. He adds performance, while maintaining moderate birth weights. Dispositions have been very good! There are 7 sons selling in our sale – Lots 1 – 7 and 2 daughters in the bred heifer sections – Lots 144 & 145.

KS JOLIE J2800

3/4 SIMANGUS / HOMOZYGOUS BLACK / HOMOZYGOUS POLLED

Jolie is a daughter of our Wandy donor who is a Kayla daughter combining 3 generations of donor cows. She has a beautiful udder, super disposition and great feet. Her first two natural bull calves sold in the sale and she has a Diligence heifer calf from this year besides the flush to Diligence. The flush to Diligence is impressive. All three full brothers in the sale are stout, structurally correct, quiet, and flat out impressive. Flush brothers sell as Lots 1 – 3.

Our pick of the Eichacker Simmental Sale in 2025! Performance bull with added length and frame with great feet and leg structure! Look for his calves in the 2027 sale!

**NEW HERD SIRE
SEMEN AVAILABLE**

KENNER SIMMENTAL RANCH

Black Purebred & 3/4 Simmental Bulls (All Homo Polled)

TNT RESOLUTION L436

3/4 SIMANGUS / HOMOZYGOUS BLACK / HOMOZYGOUS POLLED

We purchased Resolution from TNT Simmentals in 2024 with this being his first calf crop. Resolution has an impressive phenotype along with a great foot and a super disposition. He's a performance bull that did not cause calving issues and the calves grew well! They've got frame, thickness, large testicles and are structurally sound with great dispositions. We are excited to see how his females do in the future too! There are 12 sons of Resolution selling in our sale this year - Lots 8 – 19.

KS KEIRA K496

HOMOZYGOUS BLACK / HOMOZYGOUS POLLED

Keira is a young new donor by Manifesto and out of a daughter of the Wandy donor who is a Kayla daughter. Just like the Jolie cow, combines 3 generations of consistent, donor cows. Keira has a beautiful udder and great feet with extra length and femininity. She had a good Tahoe son in the sale last year for her first calf. She has two sons by Resolution in this sale – Lots 8 & 9.

TNT DIVERSIFY H301

HOMOZYGOUS BLACK / HOMOZYGOUS POLLED

This is the 3rd year of Diversify calves to sell! He was held back from the TNT sale the year he sold due to an injury and Accelerated Genetics purchased him later for their beef on dairy program. We've been extremely happy with his calves. He's a performance bull that adds frame and performance in a moderate birth weight. Dispositions are excellent! He's an outcross pedigree for many. We have 7 sons in the sale this year – Lots 20-26 and 1 daughter in the bred heifers – Lot 141.

Eleanor loves being out at the farm with Mom when she can! She loved playing with the baby calves, checking cows in the gator, feeding mom's horses and she'd ride a horse every day if she could! We're still working on the proper attire since she'd rather be in a dress every day!

Black Purebred & 3/4 Simmental Bulls (All Homo Polled)

KS CREED K258

3/4 SIMANGUS / HOMOZYGOUS BLACK / HOMOZYGOUS POLLED

Creed was one of the high-selling bulls in our 2023 sale that sold to Quandt Brothers of Oakes, ND. We've used him in our AI program, and we really love his calves! Creed was one of a set of flush brothers by our donor, SRF Miss 940G, who has really made her mark on our herd. Creed's full sisters are exceptional cows in our herd. There are 7 Creed sons in the sale - Lots 27 - 33. **Contact Quandt Brothers for KS Creed semen.**

MR GD CHECKMARK K239

HOMOZYGOUS BLACK / HOMOZYGOUS POLLED

We purchased Checkmark from G&D Simmentals in 2023. This is his second calf crop. We used him in the pasture only, so many of his sons are later born. Checkmark is a performance bull! His calves have good depth, length, and thickness. The feet look great and they have good dispositions. Two sons sell as Lots 34 - 35 and 5 daughters as Lots 149 - 153.

KENNER SIMMENTAL RANCH

Black Purebred & 3/4 Simmental Bulls (All Homo Polled)

CHSR BIG BEN 203L

HOMOZYGOUS BLACK / HOMOZYGOUS POLLED

We purchased Big Ben from Crosshair Simmental Ranch, Dawson, ND, in 2024. He's another Assurance son like TNT Resolution! He's a very large-framed bull with a ton of extra length and is super docile. There are only 2 sons in the sale this year. They are structurally sound, super long and very docile like their sire. Two sons sell as Lots 36 – 37.

Photos Below: The Lot 36 bull found himself in a predicament in July when he fell into a hole under a very old, abandoned windmill. We were unaware there was an open hole there. When Erika was checking the pasture in her gator, his mother kept belling at her. After realizing her calf was missing, Erika followed the cow across the pasture and found out the calf was 14 feet down in the windmill hole. Erika called for reinforcements and with a loader tractor and straps, he was lifted out of the hole unharmed. Our employee, Andre, was in the hole with the calf who was super cooperative and patient the entire time letting him tie the straps appropriately. The cow stood beside us all watching intently and was extremely happy when we got him out. Great cow behind Lot 36!

BLACK PUREBRED & 3/4 BULLS

KBHR GLOBAL J138

HOMOZYGOUS BLACK / HOMOZYGOUS POLLED

Global was one of the high-selling bulls in the Keller's Broken Heart Sale in 2022. This is the third year we've used him in our herd, and we utilized him mainly on first calf heifers. The calves are eye-appealing with a tremendous profile and nice muscle shape in a moderate frame. The dispositions are super. There are 3 sons and 5 daughters in the sale – Lots 38 - 40 & Lots 126 - 130.

BLACK 1/2 SIMANGUS BULLS

KS CAYMUS K984

1/2 SIMANGUS / HOMOZYGOUS BLACK / HOMOZYGOUS POLLED

We sold Caymus in our 2023 sale to Wes Leapaldt, Woodworth. We collected semen and sampled him in our AI program for our heifers and high-performance cows. We love the Caymus calves, which isn't surprising since his granddam is Kayla – who is known for producing the great ones! The Caymus calves still have adequate growth for being a calving ease bull. The calves have thickness and style and are structurally sound with great dispositions. His 9 sons sell as Lots 43 – 51 and two daughters as Lots 154 – 155.

KS KAMILA K306

1/2 SIMANGUS / HOMOZYGOUS BLACK / HOMOZYGOUS POLLED

Kamila is a young, new donor for us and you won't question why when you see her four sons by Caymus in this sale! Kamila is impressive in her length and femininity, has a beautiful, level udder and top 10% for growth, top 3% for docility and still above average for Marb and REA EPDs. Her granddam was a donor for us by Black Diamond who has several highly productive daughters in our herd. Four sons by Caymus sell as Lots 43 – 46.

SITZ STELLAR 726D

PB ANGUS

This is our 5th calf crop of Sitz Stellar. They are so easy to like that we keep using him year after year! They are impressively stout in a stylish made package, sound and fluid moving, stand on a great foot and have excellent dispositions. They have impressive muscle shape and thickness and stand out in the pen! We used Stellar on our heifers and high-performance cows. The daughters in our herd are beautiful and great mothers, in fact, many have sons in this sale! Four Stellar sons sell as Lots 52 - 55.

TNT JAMESON J415

1/2 SIMANGUS / HOMOZYGOUS BLACK / HOMOZYGOUS POLLED

We purchased Jameson from TNT Simmentals in 2022 and just before they were going to deliver him to us, he broke his leg in the pen messing around with the other bulls. We tried to heal him up, but it didn't work, so he never walked our pastures, but we did have semen on him, so we were able to use him in our AI program and we're so glad we did. We love the Jameson calves! He puts a ton of mass and thickness into his calves. So far, the feet and structure look great and the dispositions are super. Use the Jameson sons if you need to add power and performance in your herd. Four sons sell as Lots 56 – 59.

Black 1/2 SimAngus Bulls (All Homo Polled)

TEHAMA TAHOE B767

PB ANGUS

This is the 3rd year we've used Tahoe in our herd. We chose Tahoe as our 2nd Angus sire to use in our AI program for calving ease, yet he still maintains growth for a calving ease bull. He did exactly what we wanted. He works well on Simmental cattle. He was used mainly on heifers and some high-performance cows. Two Tahoe sons sell as Lots 64 – 65.

Congratulations to Bryan & Gay Leapaldt as Benson County's Outstanding Agriculturalists at this year's NDSU Harvest Bowl!

Bryan has been involved in farming and ranching for 45 years. After farming independently, he became the herdsman at Kenner Simmental Ranch in 1995, where he has worked for nearly 30 years. The operation uses rotational grazing and has integrated fresh water systems throughout most pastures. Bryan enjoys working closely with cattle year-round, especially during artificial insemination and embryo seasons. He serves on the Benson County Extension Advisory Board and has chaired the Leeds Community Center for two decades. His wife Gay operates a daycare and is active on several local boards, including the Leeds Ambulance District and the Community Center. *Reprinted from NDSU Extension*

BLACK 1/2 SIMANGUS BULLS

WL ACCOMPLISHMENT 053

PB ANGUS

The 053 bull was our purchase at the Wendel Angus sale in 2021. He was only used in the pasture, so many of his calves are later born, but they are very well-balanced, are attractive and yet full of muscle. He calved super on heifers and was also used on some high-performance cows. 5 Sons of 053 sell as Lots 66 - 70 and 5 daughters sell as bred heifer Lots 160 - 164 and 1 as a bred cow - Lot 197.

UNDERSTANDING CALVING EASE, STAYABILITY & DOCILITY EPDS AND API & TI INDEXES

BY ERIKA KENNER

EPDs are important to utilize when selecting bulls for your herd. It is the fairest way to compare animals across herds as it averages sire groups within contemporary groups and removes the environmental component. Actual data will only compare the animals within the herd they are raised and that environment may be entirely different than yours. In order to use EPDs most effectively, we need to understand what they measure and what data is included.

The direct calving ease EPD (CED) measures the % of unassisted births when used on first calf heifers. American Simmental Association (ASA) recommends to use when selecting bulls for your heifers. CED EPD does not need to be as high when using on cows. I would even say it doesn't need to be double digits when breeding cows. Don't get me wrong, a live calf is always the goal, but there is a happy medium. We sell by the pound and still need these calves to grow. In northern ND, the small 60 lb calves struggle more to stay warm after birth than a heavier calf. Again, there is a happy medium. I'm not advocating for over 100-pound calves.

The Indexes are included with the EPDs, but instead measure profit and are a combination of many EPDs plus they include inputs and outputs for each trait. The first Index is API. API stands for All Purpose Index meaning all the traits relevant when retaining a portion of the females in your herd. American Simmental Association has a nice chart that shows what is used to calculate API.

Notice, the largest part is Stayability. Stayability EPD is the difference in probability of a sire's daughters staying in the herd from after they calved as a 2-year-old until 6 years of age. Which means that anything culled from the herd prior to their first calf is not counted towards the EPD. If there are problems with a sire's docility and most of the calves are wild, they are usually culled before breeding. Same thing with major feet and structure issues. There are bulls in the breed who have extremely high API and Stayability EPDs, yet have the lowest docility EPDs.

Many do not realize that the Docility EPD is not included in the indexes directly since there aren't inputs associated with it. If cattle are culled for disposition after calving, then it's included in the stayability portion, but docility is a trait where most will be culled prior to breeding. In my opinion, culling a sire group's daughters for docility prior to breeding is an economic hit. That year of replacements is lost.

Calving ease EPD is a major part of API in the Calf Survival portion of the pyramid. Since the CED of cow bulls will not be as high, the API of cow bulls often is not as high. But we can't just breed for calving ease bulls. We still need performance. Cows should be able to have 7% of their body weight in a calf. Which means a 1400 lb cow can have a 98 lb calf and a 1200 lb cow can have an 84 lb calf. Granted, calving issues can cause reproductive problems in the cows later, so I am not an advocate of the extreme high birth weights either. Balance is key.

Ranchers who are not retaining heifers from the herd and marketing the entire calf crop each year, need to pay more attention to the TI – Terminal Index. TI includes the EPDs and traits associated with growing calves to feed, finish and grade. This index also includes calf survival (CED) since we need live calves, but then it includes the growth traits and the carcass traits.

We strive for balanced EPDs. We feel using the top 1% API EPD bulls is not necessary to be profitable. If the EPDs are balanced and the API is above average, that means profit to us. Sometimes extremes can cause problems and there are levels in each EPD where too much is not the answer. Too much milk for example and too much calving ease. There should be a point where it negatively affects the animal when it is too high. Is the highest calving ease bull truly the most profitable. Live calves are important, but so are pounds at weaning, structure, function and docility.

We believe in EPDs and use them in our program. It is the only fair way to evaluate cattle across herds, but we need to understand how they are calculated. It is still important to evaluate the animals in the pen for feet and leg structure, udder quality of females, and dispositions.

Every ranch is different and has different needs and managements. Some need extra calving ease because of their situation and are willing to give up the extra pounds. Understanding what they measure and how they are calculated is important.

KENNER SIMMENTAL RANCH

Red Purebred & 3/4 Simmental Bulls (All Non-Diluted and Homo Polled)

BCLR BOND K9161

NON-DILUTED RED / HOMOZYGOUS POLLED

We purchased Bond at the Bichler Simmental Sale in 2023 and we share him with Bichler's each year since they calve in May/June. These will be the first Bond calves to sell and Doug will have some in his sale this Fall. We used Bond on heifers and high-performance cows and he worked very well! The calves are dark, cherry red and have a moderate frame with thick tops and muscle shape. There are 9 sons in this sale as Lots 71 – 79.

KS MISS SHAMWOW Z829

NON-DILUTED RED / HOMOZYGOUS POLLED

Z829 has consistently put high-performance bulls in the sale. We culled her at 11 years of age, but we still had embryos in the tank! She usually adds frame and length in all her calves and it works well when combined with more of a calving ease sire, like Bond, as she has tons of performance. Her two sons sell as Lots 71 – 72 and 1 daughter in the bred heifer section – Lot 182.

Kenner Simmentals rode horse in the parade in Minnewaukan this summer! Eleanor's 1st parade and she rode a 24-year old mare of Erika's as Erika lead her. She yelled Yeehaw and threw candy like a champ! South African employee, Andre, got to ride along with Erika, Tyler and Roger!

RED PUREBRED & 3/4 BULLS

KENNER SIMMENTAL RANCH

Red Purebred & 3/4 Simmental Bulls (All Non-Diluted and Homo Polled)

KS CALIBRATE K209

NON-DILUTED RED / HOMOZYGOUS POLLED

Calibrate sold to TNT Simmentals in 2023 and is currently owned by TNT and Bichler Simmentals. We used him in our AI program on heifers and high-performance cows and we have been extremely pleased! We even purchased a Calibrate son from TNT Simmentals last year! Calibrate is one of those bulls who calves well on heifers, but the calves still grow and they have super dispositions. Calibrate's EPD profile just keeps getting better. He is so well-balanced in every trait! He has 6 sons in this sale – Lots 80 – 85.

TNT Verified M531

Our pick of the TNT Simmentals Sale in 2025! A high-performance, Calibrate son who's also in the top 20% for Marbling and REA EPDs! We are excited about his calves coming in 2026!

KS NET INCOME H433

NON-DILUTED RED / HOMOZYGOUS POLLED

Net Income sold to Lazy C Diamond Ranch in our 2021 sale. We used him a couple years ago and decided to go back to him again because the females are so nice and he works so well for calving ease! We used him on high-powered females and some heifers. His progeny have super feet, correct structure, the females have great udders and they are all super quiet.

Four sons sell as Lots 86 - 89 and one daughter in the bred cow section - Lot 204. Semen available from Lazy C Diamond Ranch, Kintyre, ND.

GW HILGER ONE 454H

3/4 SIMANGUS / NON-DILUTED RED / HOMOZYGOUS POLLED

We had some Hilger sons in our 2024 sale and really liked the performance and outcross pedigree they added so we decided to use him again. He is owned by All Beef and was raised by Gateway Simmentals in Lewistown, MT. The Hilger's are hard to miss in the pen with their muscle shape and performance, and he ranks in the top 3% for growth along with adding excellent carcass value. The dispositions are excellent. He's out of the same sire as GW Major Move, but still an outcross pedigree to most of our red cows. Six sons sell as Lots 90 – 95.

A red bull calf and his young mother in the pasture just before weaning in September.

DCR MR KILLIAN K70

NON-DILUTED RED / HOMOZYGOUS POLLED

Killian was purchased by Traxinger Simmentals from the Doll Simmental Sale in 2023. We used him in our AI program on heifers and high-performance cows for the last two years. Outcross pedigree here for us if you've used our program for a long time. We only have a couple bulls in the sale this year, but we have quite a few bred heifers in the sale by him. Two sons sell as Lots 96 – 97 and 7 daughters sell as Lots 175 – 181.

KENNER SIMMENTAL RANCH

Red Purebred & 3/4 Simmental Bulls (All Non-Diluted and Homo Polled)

ROCKIN H CAPTIVATE J75

NON-DILUTED RED / HOMOZYGOUS POLLED

Captivate was the high-selling bull at the Rockin H Sale in Minnesota in 2002 for \$95,000 to Lazy C Diamond and Bichler Simmentals. This is the 3rd year we used him in our ET program and we also have calves by a son of his we raised this year – KS Hypnotic L657. He carries a very well-balanced EPD profile and has added a lot of length and performance to his calves. The dispositions are excellent. Two sons sell as lots 98 – 99.

KS ELSIE E820

NON-DILUTED RED / HOMOZYGOUS POLLED

Elsie is a daughter of KS Penny X395 and ShamWow! We have a few of those daughters in our herd and they all rise to the top each year with their calves. Elsie has a good udder, a super disposition, and great feet and structure. She seems to click with every mating we throw at her! We only have the two bulls by Captivate in the sale this year, which are full brothers to the one in our sale last year. Elsie is also the mother of KS Tennessee who has bulls in this sale and many of her daughters also have bulls in this sale. Her two direct sons sell as Lots 98 – 99.

WE OFFER 100% OWNERSHIP OF THE
ENTIRE BULL FOR EVERY LOT IN OUR SALE
ALLOWING OUR CUSTOMERS THE ABILITY
TO FREELY CAPITALIZE ON MARKETING
OPPORTUNITIES. NO STRINGS ATTACHED.

KENNER SIMMENTAL RANCH

Red Purebred & 3/4 Simmental Bulls (All Non-Diluted and Homo Polled)

KS HYPNOTIC L657

NON-DILUTED RED / HOMOZYGOUS POLLED

We chose to purchase Hypnotic in our 2024 sale with Doug Bichler and have used him in our pastures each year. He has proven to be a great calving ease bull on heifers and yet he adds frame and thickness. His mother has a beautiful udder and also produced KS Mr Red Rock J657 who is a service sire for some of our sale bred heifers. Dispositions are excellent and they are all very structurally sound. He had mostly daughters born last year, so we look forward to the females in the future! Five sons sell as Lots 100 – 104.

Red Purebred & 3/4 Simmental Bulls (All Non-Diluted and Homo Polled)

RED PUREBRED & 3/4 BULLS

KS TENNESSEE J2510

NON-DILUTED RED / HOMOZYGOUS POLLED

Tennessee sold in our sale to Bichler Simmentals in 2022. We have shared him between breeding seasons the last few years. This is the third year we've had sons by him. They are dark, cherry red, deep bodied and thick and nicely made. Tennessee adds frame and performance without sacrificing birth weight. They've all been structurally sound, and the females look like they will make nice cows! Most of his sons are later born as we've only used him in the pasture. Three sons sell as Lots 105 – 107 and one daughter sells as Lot 171.

SIX MILE PRIVATE STOCK 32H

PB RED ANGUS

We've used Private Stock for the last couple years in both our 1/2 SimAngus program and our Purebred Red Angus program. We used him on heifers and high-performance cows. He worked very well in our herd. Dispositions are great! He has 1 son in the 1/2 Red SimAngus section (Lot 117), 5 in the Purebred Red Angus section (Lots 118 – 122) and 4 daughters (Lots 186 – 189).

PUREBRED RED ANGUS BULLS

We started our Red Angus program to provide red heifer bulls, but we are selective on udder quality, disposition and feet as well. We have 8 bulls, 4 bred heifers and 1 bred cow in the offering this year. These bulls are the last Purebred Red Angus calves to born here. We bred all our Purebred Red Angus cows to Simmental bulls to make more 1/2 SimAngus for this coming year. The Red Angus are registered with the American Simmental Association and can be registered with the Red Angus Association of America upon request.

Lot 123

STRA ADMIRAL 0150

PB RED ANGUS

Admiral was our selection of the Twedt Red Angus sale in 2021 for \$27,000. He had the best feet of any Red Angus bull we'd seen. We used him each year on heifers and all the Red Angus cows as clean-up, as well as some high-performance Simmental cows to make 1/2 SimAngus. He adds a tremendous amount of muscle and thickness to his calves! Adding in his great foot quality, he is an asset to the Red Angus breed. We sold him to Westphal Red Angus at the end of the breeding season in 2023. We have continued to use him in our AI program. Three sons sell – one in the SimAngus section (Lot 116) and two in the Red Angus section (Lots 123 – 124) and one daughter sells as Lot 206.

EVERY ANIMAL IN THIS SALE IS DNA
TESTED MEANING EVERY ANIMAL IS
PARENT VERIFIED TO BOTH PARENTS!

Trailed the cows home 4 miles from the corn stalks and cover crop on December 11 this year on a 10-degree day! We had a small crew, but the cows cooperated perfectly! Roger built a small dam in the coulee so the water runs and stays open after freeze-up. Bryan drove the gator, Roger was in the pickup, Chris lead with the bale processor and Erika was on her horse!

BRED COWS

We left the bulls out one more cycle this year and put anything bred during that time in the sale. These bred cows are calving in May/June and are excellent cows. You'll see many young cows here who have a great life ahead of them. They just don't fit in our calving window. Even though they are calving later, they still need to be picked up soon after the sale.

Commercial Open Heifers

COMMERCIAL HEIFERS

We are now offering our customers the opportunity to market groups of open, replacement females in our sale! We had a couple others also interested this year, but due to extenuating circumstances, they had to reconsider. If you are interested in doing this next year, please let us know! We have 25 exceptional red heifers offered this year! The heifers will not be on display at the Kenner Sale Facility on sale day. Video footage will be available prior to the sale on DVAuction and our website.

KS Mr Full Figures H113 - Sire

KS Baylor G119 - Grandsire of heifer lots

C1-C25 25 head of Open Red Simmental Heifers

Born March/April of 2025

Right out of the replacement pen. No baldies. Beginning of January they averaged 775 pounds.

Sired By:

KS Mr Full Figures H113 - PB Simmental

KS Mr Baylor K220 (KS Baylor son out of KS Vanderbilt's mother) - 3/4 SimAngus

DSR Fireman L13 (GW Hilger One son) - 5/8 SimAngus

HSR Schnapps K381 (BCLR Schnapps son who is a son of the KS Zada cow) - PB Simmental

HSR Schnapps M439 (BCLR Schnapps son who is a son of the KS Zada cow) - PB Simmental

Corey Polensky, Rocky Butte Simmental, Dickinson, ND has been a customer of ours for many years. He always purchases great bulls. In fact, we've been using one he purchased in our AI program and we're selling sons and daughters in this sale. His dad started buying Simmental bulls in 1981-82 and they've been Simmental ever since. Corey came back to the ranch after serving in the Army in 1994. He served in Desert Storm and in Somalia before returning to Dickinson.

He has been diligent when selecting bulls and replacement heifers on feet, udders, fleshing ability and docility. He has utilized artificial insemination since 1997 except for this year because he didn't have enough help to get it done. The heifers offered in this group are right out of his own replacement pen. If he wouldn't be selling them here, he would be keeping them. His steer calves have been sold to the same person since 2004. They are GAP (Global Animal Partnership) approved – all natural.

Corey is married to Linette and they have 3 children – Tristen, Seth and Taylor. They all help on the ranch.

The heifers will not be at the Kenner Sale Facility. They will stay at Polensky's. The buyer will need to line up trucking after the sale. Corey is willing to work with the buyer on transportation costs and arrangements. Please call Corey for more information on the heifers, to see them ahead of time and for trucking arrangements.

Corey & Linette Polensky • 701-290-6510 (cell)
2430 116th Ave SW Dickinson, ND 58601

FULL VACCINATION PROGRAM:

Birth – Alpha 7, Endovac, Ralco Start Strong
10/19 (weaning) – Vista Once, Vision 7
Somnus, Poured with Ivermectin, Ralco Fight Strong

11/29 – Express 5 PHM

January – Bangs vaccinated on January 9, EID Tags, Bovishield Gold VL5, Anthrax, poured with Clean-up

Preg checked open and breedable by Circle C Vet, Dr. Jasmine Ridl-Praus on January 9, 2026.
No implants and no brands.

MINERAL AND FEED PROGRAM:

Full mineral, garlic w/EDDI salt

Currently being fed 4 pounds of ground oats and corn and grass/alfalfa hay.

KENNER SIMMENTAL RANCH

Bull Buyer's Quick Guide to ASA EPDs and \$ Indexes

Expected Progeny Differences (EPDs): EPDs are the most accurate and effective tool available for comparing genetic levels. In using EPDs, the difference between two sires' EPDs represents the unit difference expected in the performance of their progeny. For example, if sires A and B have EPDs of +10 and -5, a 15-unit difference would be expected in their progeny (moving from -5 to +10 yields 15 units). Key to using EPDs is knowing in what units they are expressed. For example, if the above case referred to weaning weight EPDs, sire A would be expected to sire 15 pounds more weaning weight than sire B. If calving ease was the trait, sire A would be expected to sire 15 percent more unassisted births in first-calf heifers; in other words, if sire B sired 30 assists in a group of 100 heifers, we would expect sire A to require 15 assists. A percentile-ranking chart is required to determine where a bull's EPDs rank him relative to other bulls in the breed. For more detailed information about EPDs and \$ indexes, visit www.simmental.org. Listed below are the units in which ASA EPDs are expressed:

All-Purpose Index (API): Dollars per cow exposed under an all-purpose-sire scenario. (See \$ Indexes for more details.)

Back Fat (BF): Inches of carcass backfat at 475 days.

Birth Weight (BW): Pounds of birth weight.

Calving Ease (CE): Percent of unassisted births when used on heifers.

Carcass Weight (CW): Pounds of carcass weight at 475 days.

Docility (DOC): Percent of offspring receiving a disposition score of 1 (docile).

\$ Indexes: Though EPDs allow for the comparison of genetic levels for many economically important traits, they only provide pieces of the economic puzzle. This is where \$ indexes come in. Through well-conceived, rigorous mathematical computation, \$ indexes blend EPDs and economics to estimate an animal's overall impact on integrated commercial production. The same technology that led to the dramatic progress in swine, poultry and dairy genetics over the last several decades was used to develop the following \$ indexes:

All-Purpose Index (API): Evaluates sires for use on the entire cow herd (bred to both Angus first-calf heifers and mature cows) with the portion of their daughters required to maintain herd size retained and the remaining heifers and steers put on feed and sold grade and yield.

Terminal Index (TI): Evaluates sires for use on mature Angus cows with all offspring put on feed and sold grade and yield.

Using API and TI: First, determine which index to use; if you are keeping replacements use API, if not, use TI. Then, just as with EPDs, zero in on the unit difference between bulls. (As described above, index units are in dollars per cow exposed.) The difference can be used to determine how much a bull is worth compared to another. Put another way, how much you can pay for one bull compared to another. For example, when buying an all-purpose-type sire, you can quickly figure a bull scoring +100 for API is worth an extra \$6,000 over a +50 bull if both are exposed to 30 cows over 4 years (\$50 diff. x 30 hd. x 4 yr. = \$6,000). A percentile-ranking chart is required to determine where a bull's index value ranks him relative to other bulls in the breed. For more detailed information about EPDs and \$ indexes, visit: www.simmental.org

Important disclaimer: DO NOT compare index values of purebreds of different breeds, hybrids of different breed composition or purebreds with hybrids — our system was not developed to make valid comparison among these groups. Therefore, you must first determine the breed and breed composition appropriate for your herd and use index values to compare animals within that population.

Maternal Calving Ease (MCE): Percent of unassisted births in first-calving daughters.

Milk (MLK): Pounds of weaning weight due to milk.

Marbling (MRB): Carcass marbling score at 475 days.

Maternal Weaning Weight (MWW): Pounds of weaning weight due to milk and growth.

Ribeye Area (REA): Square inches of carcass ribeye at 475 days.

Stayability (STAY): Percent of daughters remaining in the cowherd at six years of age.

Terminal Index (TI): Dollars per cow exposed under a terminal-sire scenario. (See TI for more details.)

Warner-Bratzler Shear Force (WBSF): Pounds of force required to shear a rib-eye steak.

Weaning Weight (WW): Pounds of weaning weight.

Yearling Weight (YW): Pounds of yearling weight.

Yield Grade (YG): Carcass yield grade score at 475 days.
